

Palestinians Tell the World: **Sovereignty Means Securing** **ALL Our Rights!**

Palestinians and their supporters everywhere are mobilizing to remind the world of their right to self-determination. In New York we are marching to the United Nations because the world's attention is focused on the vote on Palestine scheduled to take place there.

For over six decades, the U.N. has approved numerous resolutions promising Palestinians their basic rights, none of which has been implemented. We come to the U.N. to demand:

Sovereignty, Equality, and the Right of Return for Palestinians NOW!

**Rally and March to the United Nations
Thursday, September 15**

**End All U.S. Aid to Israel!
End the Occupation!
Support Boycott, Divestment, Sanctions!**

**4:30 pm: Gather at Times Square
5:30 pm: March to Grand Central and the U.N.**
